About me

We started the COME ON OVER show for one simple reason: to reignite the art of hospitality.

From showcasing beautiful flowers to creating warm and welcoming home decor to cooking amazing recipes, we want to help our viewers feel comfortable hosting people for any type of gathering.

Ultimately, we want to learn how to do those extra touches that make guests in our home feel special. Isn't that something we all need in our society today? And isn't that the best feeling in the world? The answer is "yes."
